Education

Chandigarh University **August 2020 − July 2024**
Bachelor of Engineering in Computer Science *Mohali, Punjab*

Experience

Startup, Inc **July 2023 − September 2023**
Front End Developer Intern
- Developed an Online Shopping Website taking charge of the project from its conceptualization phase to the final implementation, ensuring a seamless user experience.
- Implemented and customized e-commerce features, including a comprehensive product catalog and a user-friendly shopping cart, resulting in a 40 percent increase in average order value and a 20 percent decrease in shopping cart abandonment rate.
- Ensured a consistent and responsive design across various devices, guaranteeing accessibility and a positive user experience for both desktop and mobile users.

Projects

Online Shopping Website | *HTML, CSS, JavaScript ,MYSQL* **November 2023**
- Applied UX design principles to create an intuitive and visually pleasing layout. Prioritized clean and minimalistic design to enhance user engagement and satisfaction.
- Led the entire web development process, from conceptualization and design to front-end and back-end implementation, ensuring a responsive and user-friendly interface.
- Employed optimization techniques to enhance website speed and performance, contributing to a seamless and efficient browsing experience for customers.

Traveling website | *HTML, CSS, JavaScript,MySQL* **January 2022**
- Created a Traveling website for users using JavaScript and HTML/CSS to book their destination plan.
- Processed user-inputted information in the back-end of the website to return a subtotal price based on the plans that the user selected.
- Utilized the layout editor to create a UI for the application to allow different scenes to interact with each other.

Fitness tracking website | *HTML, CSS, JavaScript,* **April 2021**
- The fitness tracking website offers a seamless experience for users to set and track their fitness goals.
- With the help of HTML and CSS created an interacting user interface for giving a seamless experience to the users.
- Used JavaScript to create an interface that supports actions such as creating an account, and managing user data.

Technical Skills

Languages: C++, HTML/CSS, JavaScript, ReactJS, MongoDB, SQL
Technologies/Frameworks: GitHub

CERTIFICATES

- Object Tracking and Motion Detection with Computer Vision (07/2023 - 09/2023)
- Java 11 Beyond Basics (02/2023 - 04/2023)
- Spring MVC (09/2022 - 01/2023)
- Web-Development (05/2022 - 07/2022)
- Data Structures (06/2021 - 08/2021)
